

## ***Foreign Languages***

Linguistic competence in several languages contributes to the personal, academic and professional enrichment of citizens, broadens opportunities for mobility and access to different types of education or employment, and fosters intercultural exchange and the development of plurilingual skills.

The language courses are official courses that take place in a setting other than regular education. They are dedicated to the learning of more than 23 languages, from the beginner level (A1-A2) to the advanced level (C1-C2), according to the Common European Framework of Reference for Languages (CEFR).

Language learning is mainly provided in the official language schools (EOI).
